## The Club Drugs: GHB

- GHB (Gamma Hydroxybutyrate) (Liquid Ecstasy, Soap, Easy Lay, Georgia Home Boy, Grievous Bodily Harm, Liquid X, and Goop)
- Central nervous system depressant
- Easily made at home from legal chemicals
- Like Rohypnol, GHB is often called a date rape drug

## Future Outlook

- MDMA/Ecstasy surging in use
- Seizures of smuggled tablets increases each year
- Driven by desire as well as cost/profit
- Old stand-bys will always be there (LSD, ketamine)
- Associated crimes only exacerbate the problem
- Presents security risks because of smuggling & potential for “narco-terrorism” exploitation

*Our Strength Remains...*
